Courses @coderscamp.in 👁

Long Courses (Duration 8 months):

1. **Computational Thinking:** This course is a deep dive into the fundamentals of computational thinking, providing you with the essential skills to solve complex problems using algorithms, patterns, and logical reasoning. Through hands-on exercises and real-world examples, you'll develop a systematic approach to problem-solving and gain the ability to think like a computer scientist.

2. **Coding/Programming Skills:** Dive into the world of coding and programming with our comprehensive course. Whether you're a complete beginner or have some programming experience, this course covers the fundamental concepts and practical techniques needed to write efficient and reliable code. You'll explore various programming languages and learn how to tackle programming challenges, enabling you to build your own applications and software solutions.

3. **Web Development and Design:** In today's digital age, a strong web presence is crucial. This course equips you with the skills to design and develop visually appealing and user-friendly websites. From HTML and CSS to JavaScript and responsive design, you'll learn how to create engaging web pages and optimize their performance. By the end of this course, you'll have the expertise to build modern, interactive websites.

Short Courses (Duration 4 months):

ABCD of Data Science: Introduce your young ones or yourself to the fascinating world of data science in a fun and engaging way. This course teaches the basics of data analysis, visualization, and introduces popular tools used in data science. Through hands-on activities and interactive lessons, you'll discover the power of data and how it can be harnessed to solve real-world problems.

Fundamentals of AI and Data Science : Delve into the exciting world of artificial intelligence and data science with this beginner-friendly course. You'll explore the basic principles of machine learning, understand how AI systems work, and gain insights into data analysis techniques. By the end of this course, you'll have a solid understanding of AI concepts and the role of data science in shaping our future.

Fundamentals of Computers and Internet: This condensed course provides a quick and practical introduction to the essentials of computers and the internet. Covering key topics such as hardware, software, internet browsing, and online safety, you'll gain the necessary skills to navigate the digital landscape confidently. Whether you're new to computers or looking to brush up on your knowledge, this course is perfect for you.

Basic Computer Skills for Students – Working With Microsoft Office: Sharpen your computer skills with this practical course focused on Microsoft Office applications. From word processing to creating spreadsheets and presentations, you'll learn how to use essential Office tools effectively. This course is perfect for students who want to enhance their productivity and master the core functionalities of Microsoft Office.

Fee Structure:

Long Courses (8 months duration):

1. **Computational Thinking: INR 5,000 (per month)**

2. **Coding/Programming Skills: INR 5,000 (per month)**

3. **Web Development and Design: INR 5,000 (per month)**

[Note: We also provide a 10% discount on the total fee for students who opt for a one-time full payment upfront]

Short Courses (4 months duration):

1. **ABCD of Data Science: INR 3,000 (per month)**

2. **Fundamentals of AI and Data Science: INR 3,000 (per month)**

3. **Basic Computer Skills for Students – Working With Microsoft Office: INR 3,000 (per month)**

4. **Fundamentals of Computers and Internet: INR 3,000 (per month)**

Fee Structure

Whether you're a beginner eager to grasp the basics or an aspiring young tech enthusiast looking to enhance your skills, our courses are designed to meet your unique needs.

From understanding the principles of computational thinking to building your own websites or exploring the wonders of data science, our weekend classes will equip you with the tools and knowledge to unleash your full potential.
